

COBRA

ART COMPANY

Thierry Vanhuysse

GN 4928

"It's all about image", this sentence exactly describes the content of our Cobra Art Image book. Cobra Art, established in 1983, is the largest supplier of photographic and original art in Europe.

Cobra Art is a real family business based in the Netherlands. With 100% passion and love for our field, we have been able to create a wide range of photographic art and hand painted originals over the past 30 years.

Together with our artists and designers, we aim to create a varied collection of art for every interior and budget. We do not only distinguish ourselves by our collections, designs and unique pieces, but especially by inventing tailored solutions for our clients.

and photographers, our goal
tion of art, suitable for each

ourselves by our
nique presentation, but
r-made art.

Mike and Jeannette van Rijswijk

Cobra Artists & Photographers

James Chiew, born in 1969. Everything that James creates started as a hobby. James did not receive any training in design or art. Therefore, he has developed his skills as professional art director and photographer all by himself. To develop his attention to detail.

John Marcus Cluderay, born in Leeds in 1974. Whether shooting a naked circus artist in a bathtub in Massachusetts USA, or making art nudes in the dunes of the Dutch island Texel, it's clearly evident that capturing the human form has become an irresistible love affair.

Elmar Dam, born in the Netherlands in 1976. He started in 2008 with photographing old, abandoned and dilapidated buildings. He found it great to walk around in a building and to capture the characteristics, "he missed a lot of creativity".

Damiano Dargenio, born in Milan in 1982. At the end of his studies as graphic designer, he discovered in photography an interesting way to give life to his imagination. He is thrown directly in the work and through an uncommon path, learned technique and tricks of the trade, working next to photographic film practitioners.

Alain Delvoye, born in Belgium in 1959. He is a creative and commercial photographer, specializing in digital art and urban photography with a style consisting of colorful and energetic imagery. After eight years of art school, he opted finally for photography. He is a complete self-taught photographer.

Jonas Leriche, born in 1978 the professional photographer of 'Leriche Productions', is an ambitious man full of ideas about a future where his pictures will make everyone want to dream about the fantasies he creates, a future where they too, can take part in those fantasies and dreams he experiences.

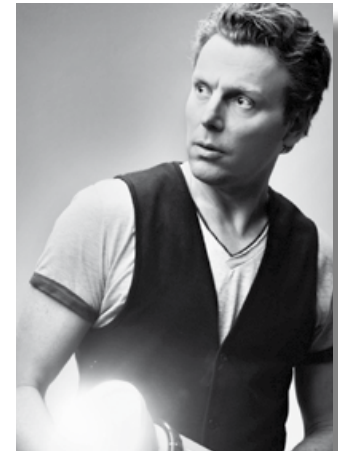

Oscar Munar, born in 1979, inspired by the crosswinds of fashion and nature, coupled with an uncompromising eye towards the female body – Oscar Munar's work frames the sense of the immediate, real and often raw. His photographs resonate with finding the inner soul of each subject and capturing that vision.

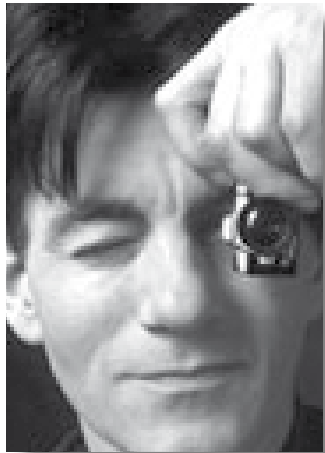

Ivor Paanakker, born in 1965, is a fashion-photographer with an exceptional style to his work. His portfolio gives a sense of something historic, but is progressive at the same time, always fashionable and feminine, but with a darker edge.

Jean-Raphael, born in Nancy in 1967. Paris was his home for 20 years where he attended the Business and Art school. After graduating he moved to the south of France in 1999 to create bars and restaurants, where he also exposed his art works.

Patrick Siemons, born in 1971. Choosing the right location, model, fashionstylist and makeup artist. Capturing the moment suprême and post processing photography. Shooting a fashionshoot is more than you think.

Wolfgang Eichler, born in Watten-scheid in 1954. What encourages my work every now and then is a quotation by Alfred Hitchcock: "The Love of Imagination is more decisive than any moral".

Jordi Gómez, born in Spain in 1978. For his signature style Jordi Gómez mixes an arresting photographic cocktail of glamour, fun and sex-appeal, shooting fashion, advertising and lifestyle photography in his inimitable glossy style.

Jaime Ibarra, born in Spain in 1971, but spent most of his formative years in Australia. His love of photography stems from his childhood. No one else in his family were photographers: "it is just something I've enjoyed doing as far-back as I can remember".

Niko van der Klugt, born in Amsterdam in 1954. He is truly an autonomous artist. With a graphic training and a long artistic work history as an independent lighting designer for theatre and modern dance productions (both national and international), events, architecture projects and "he now is full into creating digital art in all its beautiful facets".

Thierry Vanhuyse, born in 1979, a 36 year old Belgian based photographer has a deep passion for creating images which implement certain emotions on people. He does this by creating several of his images using Long Exposures Techniques.

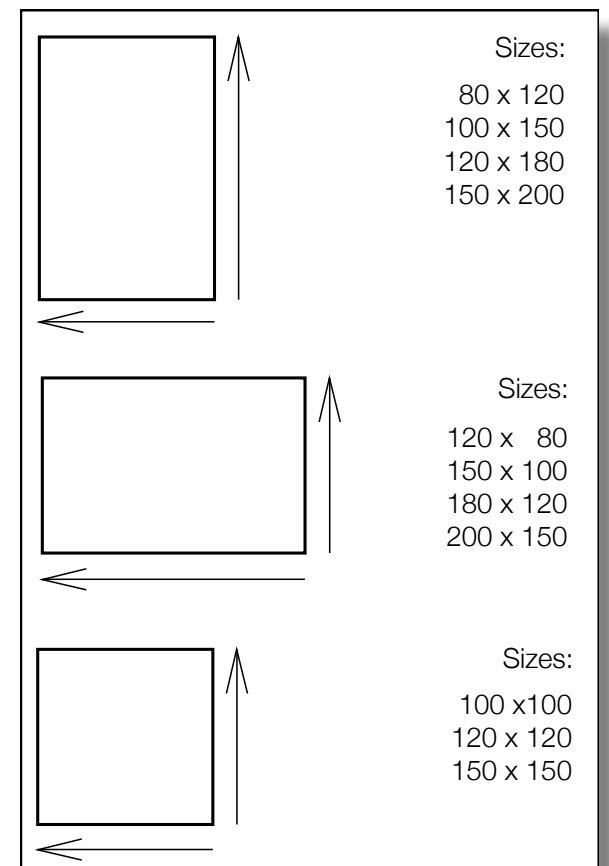

Igor Vasiliadis, born in Athens in 1972. Due to a fascist coup that took place in Greece, he and his family moved to Russia. At the astonishing young age of 6 he started making photographs and developed his first Black and White film. In 2000 he started his professional photography career.

Max Wiedemann, born in 1975, has given "Urban Art" a whole new definition - instead of spraying walls in the dark and hiding from authorities- based on his Graffiti rooted influence, Maximillian is commissioned by some of the most exclusive brands and celebrities to display his art in the hottest addresses in the world.

Robert Zwart, born in Amsterdam in 1963. Zwart admires the way the old Dutch masters worked with light. You can see this, reflected in his work. Most of his pictures are very implicit with the result that viewers have questions to be answered.

POP ART

The diagram illustrates three different rectangular shapes, each with arrows indicating its dimensions and a list of possible sizes. The shapes are arranged vertically. The top shape is a vertical rectangle with an upward-pointing arrow on its right side and a leftward-pointing arrow below it. The middle shape is a horizontal rectangle with an upward-pointing arrow on its right side and a leftward-pointing arrow below it. The bottom shape is a square with an upward-pointing arrow on its right side and a leftward-pointing arrow below it.
